

PNC³ Auction #48 Official Bid Sheet

1. Numbers in () indicate **total** number of items in lot; [] = number of items within a *subset* of the lot.
2. All lots are listed with a minimum starting bid and bids must conform!
3. For precancel strips: If there is a gap, it is listed; no listing = NO GAP!
4. In case of a tie bid, the **earliest** postmark or email date wins.
5. All winning bids will be at one bidding increment over the second high bidder.
6. I will not accept phone bids; bids must be only via mail and email!
7. R = right, L = left, HVY = heavy, Lt = light, BMC = black machine cancel, PMC = purple machine cancel, FDC = first day cover or cancel, S-# = plain strip, P = position, RHC = red hand cancel, BHC = black hand cancel, @ = at.
8. ALL Bids must be in the auction director's hands by the closing date and not just postmarked by then!
9. Bids not conforming to the bidding increments will be lowered to that level.
10. "Buy Bids" will be accepted, but realize that only one Buy Bid can be honored and that is the *first* one, and at only one advance over second high bidder.
11. IF you add a "+" (plus sign) to your Bid, I will use to break a tie only if needed.
12. Please, when placing a bid over the Internet, DO NOT use a spread-sheet or other such program as I have problems opening them. Just place in a standard email form. Once placed, please do not mail a confirming copy. The email address to send your bids to is PNC3auctions@aol.com. No phone bids please!
13. If you need to call me with questions on a lot but NOT to place a bid, please call after 7 p.m. Chicago time as I still work a full-time job. (773) 622-0663.

President's Message

from the PNC³ president . . .

Treasurer John Himes reports that over 250 members did not renew their membership in a timely fashion after the 2013 dues notice in the December issue. He speculates that the reason might be that members aren't reading the journal. Or that they are skimming the issue only for special items of interest.

This is indeed unfortunate, as late renewers incur a \$4 late fee. (This fee covers the cost of reminder letters as well as the cost of sending the missed issue of *Coil Line* by first-class mail.)

Some members reported that they did not receive a bill for renewal and therefore did not respond. Perhaps these members are confusing our club dues-renewal notification policy with that of APS or USSS. These organizations send renewal notices via first-class mail to members each year at great expense. PNC³ has never adopted such a policy, expecting that members will have sufficient notice in the monthly journal. A plea in December to "do it now, before it is forgotten" apparently fell on deaf ears in many cases.

Perhaps we will need to incur the expense of first-class dues bills this year if that is what the membership wants. Alternatively, we could post notice of renewal in both the November and December issues, giving members twice the opportunity to respond in a timely fashion. Some feedback on these alternatives (or a different suggestion) would be welcome so that the Board has a sense of what the membership desires in this regard. Send thoughts to me at gctrinks@cox.net or 16435 W. Desert Wren Ct., Surprise, AZ 85374.

Elsewhere in this issue is a list of members who have been dropped for non-payment. Fortunately, after a reminder mailing went out in January, most members did renew, but there were still 83 who had not renewed by the start of February. If you know any of these good folks, perhaps you could contact them to encourage them to renew now. The renewal form is in the December issue or available from John Himes (contact info on mast-head page). We'll send back issues of this year's *Coil Line* as long as the supply lasts. — *Gene Trinks*

Welcome!

If you are a new reader to *Coil Line*, PNC³ is in our 26th year. We are a community of stamp collectors specializing in plate numbered coil issues of the USA. The first PNCs were issued in 1981 and, in February 1988, a network of PNC specialists founded our club. *Coil Line* was launched in May, 1988 and serves (along with other club literature) to inform collectors on the many aspects of PNCs. Studies include scarce numbers, varieties, printing methods, market values, PNCs on mail, and more. Thank you for visiting, and we hope you'll join us!

PNC³ Regional Meetings

Connecticut Stamp Show March 10

The Connecticut Chapter of PNC³ plans to meet at the Second Sunday Stamp Show, March 10th at the Executive Suites (formerly Comfort Inn), 900 E Main St., Meriden, CT at 1 p.m. (The meeting for February 10th as mentioned in last month's *Coil Line* was canceled due to the massive snow storm that struck the Northeast.)

Postmaster Maurice Bessette will have an extensive array of stamps including the new coils. 8 to 10 dealers plan to attend as well. Plenty of free parking is provided, and free breakfast and lunch from 10 a.m. to 3:30 p.m. Contact Mike Conway at (203) 268-5896 or mjconway@hotmail.com if you have any questions.

The CT Chapter of PNC³ is also planning a regional meeting at Philatelic Show 2013, May 3-5, in Boxborough, MA. More details will be announced in a future *Coil Line*.

Want to Sponsor a Regional Meeting?

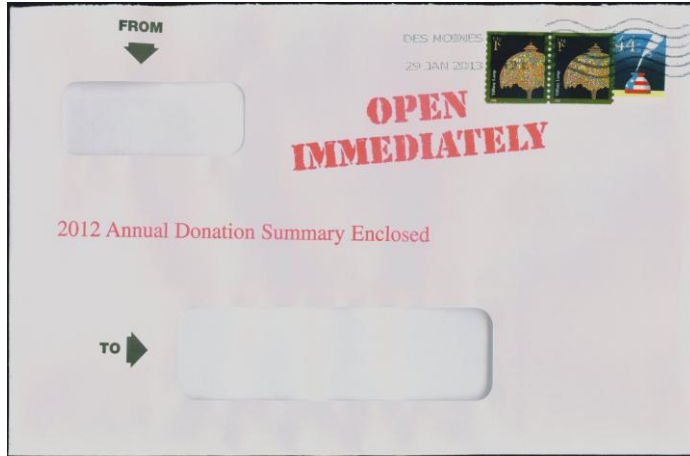

Contact Tony Bruno for suggestions. He can put you in contact with others who have taken on the task. Several members have made it a regular habit of promoting meetings in their area.

Regional Meeting Chairman

Tony Bruno, PO Box 624, East Lyme, CT 06333-0624; email, tbbee@aol.com

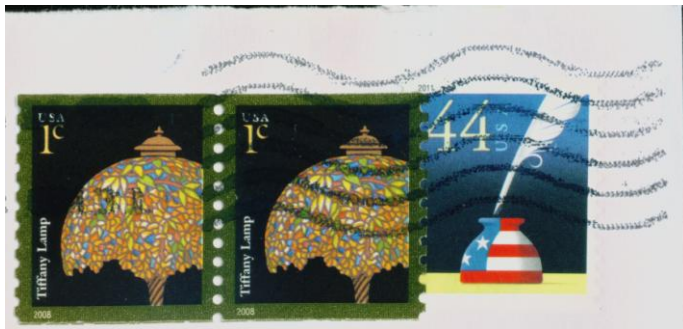

(PNC³ meeting notices in this column are free. Please submit details to the Editor 3 months before the meeting.)

Where is a PNC Version?

Member Peter Tukker submitted the above related item in response to the question raised in last month's issue about the existence of a 1¢ Bobcat self-adhesive coil used to uprate a 44¢ large-roll coil on a direct-mail piece.

From Easter Seals, it has an ordinary Des Moines inkjet postmark of January 29, 2013, canceling a 44¢ Quill (available only in self-stick large rolls) and an attached pair of 1¢ Tiffany Lamp coils (available only in gummed large rolls). The postage paid the one-ounce first-class rate that went into effect two days earlier.

Since two different coil issues were affixed, the odds of having at least one be a PNC are slightly increased. (If I recall probability correctly, based on the *PNC intervals* the 1 in 10 odds are the sum of: the odds of a PNC on the 1¢ Tiffany Lamp pair, 2 in 31, and on the 44¢ Quill, 1 in 27 [.065+.037=.102].)

So Peter's example is one of the 9 in 10 where no PNC is present; does anyone know of an example with a PNC? Interestingly, it occurred to me that with 44¢ Quill rolls on hand, meeting the new 46¢ rate by affixing gummed 1¢ pairs was quicker than affixing two 1¢ Bobcat self-sticks. — Ron Blanks

Editor's Message

The U.S. Postal Service announced on February 6 that it plans to end Saturday mail delivery to street addresses effective August 6. That date is the Monday of the first week without Saturday delivery, exactly six months after the news. Postmaster General Patrick Donohoe stated in an interview on PBS that evening that the cutback plan would save \$2 billion a year. He noted stamped mailpiece volume dropped from 51 billion in 2003 to 30 billion in 2012. Two days later, I heard news that a sharp drop in mail volume for October-December 2012 factored in a \$1 billion USPS loss for the quarter.

Ever since the notion of ending Saturday delivery became serious about a year or so ago, I have wondered if a particular flaw in the plan would be addressed. It didn't, since we don't have an alternate plan that keeps Saturdays in the rotation of a reduced five-day delivery week. The flaw is that too many Saturdays are part of extended weekend holidays, most being "federal Monday" holidays.

As a coincidence, I'm writing this on the Saturday of President's Day weekend. I learned that a three-ounce parcel I left for my carrier to pick up the prior Wednesday was not delivered Friday to an address that gets two-day service for my letters. Without delivery on Saturdays, the next possible delivery date is Tuesday, six days for first-class mail to travel 95 miles. But that is only one vignette of the plan's outcome.

A minimum five federal holiday observances are set on Mondays. This is 10% of the weeks in a year that Tuesday delivery will consist of *four days' mail*. Then consider that sometimes other holidays will fall on a Monday (Veterans Day in 2013), and also others falling on a Sunday will be observed on Monday (e.g., July 4th in 2011).

Yet this impact of dropping Saturday delivery continues: Some Monday deliveries likewise will consist of four days' mail. Having a normal two-day weekend for letter carriers now means holidays falling on Fridays are included for the first time. This is in addition to those falling on Saturdays that are observed on Friday (e.g., New Year's in 2011, as well as the preceding Christmas Day a week prior).

Granted, given the substantial reduction in mail volume that has occurred in the past decade or so, this observation could be construed as tilting at windmills. However, the fact remains that for many areas of small-business, home-office and hobby commerce involving mail, these episodes of "feast or famine" mail delivery will have substantial impact on their schedules, and thus, their operations. — Ron Blanks

Readers' Forum

On the counterfeit (41¢) Flag PNC shown on page 18 of the February *Coil Line*: I wrote an article in the June 2008 *Coil Line* (page 107) about other counterfeits of this issue. One of those displayed a similar plate number (S111) to last month's report. However, while the newly reported fake used three colors for the plate number, the earlier reported one used only blue ink. — Robert Thompson #1415L

Closeups of counterfeit plate number coils reported in *Coil Line*: all-blue S111 (top, from June 2008 issue), multi-color S111 (bottom, February 2013).

After I wrote the Editor's Message for this issue, I learned that Saturday street-address mail delivery is not the only activity the USPS intends to eliminate. The USPS will also stop processing most outgoing mail on Saturdays. Even though post offices open on Saturdays will remain open, the USPS failed to also publicize that mail deposited at those POs on weekends will not even be collected until the next work day (up to *four* days later during holiday weekends). This will have much more impact on those actively mailing (e.g., getting bills out), in contrast to any ambivalence of the public about which days mail is delivered. — Ron Blanks

I found this 42¢ U.S. Flag PNC from the first set of the Flags of Our Nation series (the first stamp in the series, actually) and it looks like an embedded cobra to me. If it is an embedded cobra, have many been reported? I haven't seen any in *Coil Line* or online. Also, would you call it a "Valley/Valley" (V/V) or a "Peak/Valley" (P/V) die cut?

— Joe Lenahan #2127

[The "cobra" shape is the row-separator portion of the vertical die cutting on most Sennett Security Products' produced coils. It is normally sliced in half by row-slitting during coiling so that half is at the top run of peaks and valleys; half is at the bottom. If the die cutting is mis-aligned in relation to the printed images, then more or all of this row separator is displaced above or (as in this case) below the horizontal cut that normally slices it in half. Joe initially emailed another PNC³ member his questions and received the following reply.]

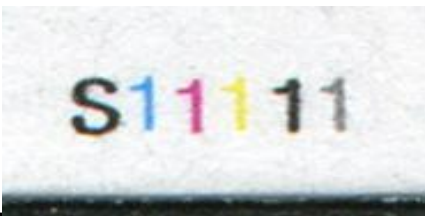

Yes, this is a very nice example of an embedded cobra. The stamp is P/V, which is true of all stamps in this series. For Sennett stamps, if the separator die cut runs like this "∩", it's P/V. If it runs like this "∪", it's V/P. The FOON series is only P/V. I'm not sure how many of these have been reported, as I don't think anyone is keeping count of embedded cobra finds. It's a fun item, and perhaps quite rare, but would only command a small premium over a normal die-cut stamp — perhaps 50% more or maybe even double the normal price. But you won't be able to retire on the proceeds! — John Himes #957L

Catalog Corner

by Frank Covey

**46¢ Kaleidoscope Flowers
Plate S1111
PNC ID 2013-1**

The 46¢ Kaleidoscope Flowers from Sennett Security Products went on sale in Kansas City, Missouri on January 14, 2013. It was issued in large rolls of 3,000 and 10,000 for use by mass mailers who use affixing equipment to stamp their mail. The Kaleidoscope Flowers' 46¢ denomination pays the First-Class mailing rate that went into effect on January 27, 2013.

The S11111 plate number shown to the left repeats every 28th stamp along the roll. Most collectors will save this as a PS9 (plate strip of 9) with the plate numbered stamp in the middle of the strip.

The 3K rolls have 4-digit back numbers and the 10K rolls have 5-digit back numbers. The only rolls known so far have an odd-number back number configuration. On an "odd back number" roll, the closest that the back numbered stamp (every 10th) gets to the plate number coil is one right or one left of the plate number.

The issue is comprised of four designs, or rather one design executed in four color schemes, as shown below. The stamps come on a liner that is higher than the stamp, with gaps between each stamp to facilitate use in affixing equipment. "USPS" is microprinted on each design (*shown below*).

← 4-digit back number found on 3K rolls

Note: The back number creeps two stamps with each new plate #.

5-digit BN → found on 10K rolls

** (Lot 318 detail, front

◀ Lot 321 page)

3¢ Silver Coffeepot coil no longer has plate # S1111 (shown here) as its only known plate #.

New Plate # for 3¢ Coffeepot

Member Richard Beecher reports finding a new plate number “S2222” for the 3¢ Silver Coffeepot coil in the American Design series (Scott 3759). This is the first plate number to supersede an existing number for a coil in this series. Richard posted online at the Virtual Stamp Club that he found the new PNC on a DAV envelope.

46¢ Kaleidoscope Flowers #on#?

Unconfirmed at press time, a PNC dealer has just reported finding a “# on #” roll (in which a counting backnumber is on a plate numbered stamp) of the new 46¢ Kaleidoscope Flowers issue.

Odd Phosphor Tag Breaks on 32¢ Aloha Shirts

Former member Scott Adams reports finding phosphor tagging breaks on the 32¢ Aloha Shirts at the second die-cut margin to left of the PNC (position “2L,” or “3L/2L” as some label the locations between stamps: left side of the stamp to the left of the PNC). A second break is at the eighth margin to right of the PNC (8R) in the same roll. This seems a bit odd as the 2L-8R spacing (spanning 10 stamps) is significantly shorter than the 8R-2L spacing (spanning 15 stamps). You would expect them to be roughly equally spaced. (Since the plate number interval is 25, they couldn’t be exactly equal unless one of the breaks fell in the middle of a stamp.) I was able to examine the actual roll.

Fuzzy
29¢
Oregano
Oddity

Member Jeff Fiszbein has found a used copy of one of the 29¢ Herbs (the Oregano design) with an obvious upward shift of the black color that causes the image to look blurry and the year date to be split between the top and bottom of the stamp.

Scott Raises Some PNC Values

While we have gotten used to value decreases for PNCs, the U.S. *Scott 2013 Specialized Catalogue* did include some price increases, particularly for some of the multi-design PNCs. For instance, all of the regular 33¢ Berries (Scott 3302-05) go from \$7.75/13.50 for PS5/PS9 in the 2012 edition to \$10.00/16.00 in the 2013 edition, and the linerless Berries (Scott 3404-07) go from \$17.50/30.00 to \$20.00/45.00. The latest increase example I noticed were all of the various 42¢ Flags from rolls of 100 that went from \$7.50/12.50 to \$10.00/15.00.

Update to “New Coil Issues Arriving”

The 46¢ Patriotic Star in 10k rolls is scheduled for March 19, with #S111 every 27 stamps. The February 25 issue of *Linn’s Stamp News* clarifies that 3k rolls are not currently planned. The San Francisco issuance location is likely in conjunction with the National Postal Forum being held there March 17-20.

In related news, a “Forever” denominated Flag for all Seasons regular issue will be released, likely in May. The four designs appear as if looking up at a flag against a background of trees in each of spring, summer, fall, and winter seasons, respectively.
