## Final call for nominations

The Plate Number Coil Collectors Club will elect its officers and Board Members in June, for the next term beginning September 1.

Nominations are open at this time, but this month will mark the end of the nominating period. If you wish to serve fellow members on the Board, or wish to nominate another, now is the time to step forward.

Elected positions are: President, Vice-President, Secretary, and Treasurer, and two Member-at-Large positions. Please contact Gene Trinks, Chair of the Nominating Committee, at gctrinks@sprynet.com, or 248-528-1857.

### Auction #30 open for bids

Plate Number Coil Collectors Club Auction No. 30 is a part of this issue of Coil Line. The auction listings can also be found on the club's website, address at the top of this page.

Auctioneer Joe Sedivy has prepared a listing with 608 lots. He reports that the # on # section is really starting to grow and the strip of three section keeps getting smaller.

All of the rules are listed at the end of the auction listing and a bid sheet is attached. Please follow the guidelines and made sure to note the bid closing date of March 27, 2004. In the event of tie bids, the lot goes to the earliest bidder. Be prepared to pay the bill for the lots you win when the invoice arrives.

Prompt payment allows Joe to close the books on the auction and see that your fellow members are paid for their lots that have been sold. All bids go to Joe via the options listed with the auction listing. Do not send bids to anyone else and then expect them to forward the bids to Joe.

Among the lots is a VF-XF18c PS3 Flag # 6 with a minimum bid of \$550; numerous PS3 strips of Transportation coils with gaps; two complete PS 5 sets of the "G" stamps; an FOP PS5 #88898 10x10 pv/vp; several miscut items from the Transportation series; interesting covers and a used single of FOP13231A 10x10 vp/pv. None of the items in the auction belong to the editor.

Message from the President:

## 2004 PNC Outlook

Having recently received the Spring 2004 USA Philatelic from the USPS, one notes that there are no new planned coil releases in 2004. Nonetheless, in late January a new 3K Flag Waving from Sennett Security Products (2004-1) was announced by the Philatelic Sales Unit in Providence RI. You can read about this one on the Catalog Corner page.

Will this be the sole new issue of 2004? Since PNCs made their debut in 1981, there have only been two years (1989 and 1990) when only one new PNC came into being. A new version of the 7.1c Tractor PC issued in May of 1989 was the only new coil issue of that year and even then, the design was just another version of the same 7.1 Tractor issued in 1987. The \$1 Seaplane was the only 1990 issue.

Four printers are actively printing coils. Avery Dennison (AVR) prints the 23c Washington (2002-6), the 10c Atlas (2003-9), and the Snowy Egret (2003-8). New plate numbers are probable on the Washington and Snowy Egret and possible on the Atlas during 2004. (Our website reports that Washington V45 has just been discovered.) Ashton-Potter (AP) prints the Nonprofit Seacoast (2003-5). We could see another plate number here as the nonprofit stamps see heavy use. The Seacoast has been an interesting issue for backnumber enthusiasts, with backnumbers appearing both right side up and upside down.

Sennett Security Products (SSP) prints three versions of the Flag Waving issue. The 3K gummed version used in vending machines (2002-3), the stick SA version in rolls of 100 (2003-7) and the new 3K (and 10K?) SA version with gaps (2004-1). SSP is also printing the First Class Presorted American Eagle that has had 3 plate numbers since June of 2003. It's quite probable that new plate numbers will appear on 2003-7 as the Flag stamp sees the most use of any design. I think we will also see a new

(Continued on page 30)

2004-

(Continued from page 29)

plate number on the gummed flag in 2004. SSP seems to be printing all the gummed coils. In 2003 they printed the gummed Lion (2003-1) and the gummed Tiffany Lamp (2003-2).

The Bureau of Engraving and Printing (BEP) prints the Flag Waving coils of 100 (2002-4). We are certain to see new plate numbers here. However, sometime in fiscal year 2005, which begins October 1 of 2004, the BEP presses will shut down and the US government will cease printing postage stamps. When that happens, will another printer be called upon to help SSP print Flags? We will have to wait and see.

So even if 2004-1 is the sole new issue for 2004, new plate numbers on existing issues will keep plate coil collectors busy.

Catalog orders were mailed February 7 to those who had their order to our Treasurer by January 20.

#### Letters

#### Words of praise for Coil Line

To the Editor:

I want you and the rest of the people that work on and contribute to *Coil Line* that in my esteemed personal opinion, having edited many newsletters over my long and marginal career at the expense of my employer-du-jour, the PNC3 newsletter is the finest production out there today.

I read literally dozens of newsletters each month. I judge them primarily on original editorial content and readability, second on accuracy of content, spelling and correct use of the English language, and finally on physical appearance (layout, printing, illustration and font usage).

You get a "10" on all counts. And you do it consistently. Thanks for a meaningful and useful product.

## Comments on SA coil centering solicited To the Editor:

I'm sure we have all noticed how bad the centering is on some of the self-adhesive coil stamps from rolls of 100 produced by the BEP. There has been the occasional general comment on this in *Coil Line*, but I have not seen any discussion on specifics. I would like to see people report in *Coil Line* on which plate numbers they have found to be the most difficult to find with good centering.

My own impression from my own tiny part of the world is that the non-denominated (37c) Flag 2222 was the worst, but the story my be different elsewhere. Reports from mixture and cover sorters would be most welcome since they see many of each number.

## Plagued by Debris?

Do you use plastic pocketed storage sheets? Do you wonder what to do about the specks of dust and paper debris which accumulates on them? There may be a solution close by.

Use of plastic pocket storage sheets and particularly, stock books with plastic film divider sheets, are subject to attract lint, dust particles and micro-paper bits due to the static electrical charges built up through handling. These negative charges attract the positive charged dust and alien particles in the air which then cling to the plastic material. A wipe with a Kleenex or the like merely exacerbates the problem, building the static charge even higher. The wipe just moves the particles to a line up! Picking and brushing helps, but the problem is still there. The attraction of the static charge still exists.

There is help, and probably closer than you think if your household is a user of anti-cling assistance in the laundry room. Commercial products, such as "Bounce" sheets, tossed into the dryer helps eliminate static "cling" to your laundry and apparel.

Likewise, they will do a lot for your attempts to deter the attraction of dust particles in your stock sheets and books. A used sheet works quite well and a few light swipes across a page seems to be effective toward brushing the particles from their resting place. And the fragrance may be a welcome symbiotic addition.

It appears the positively charged anti-cling sheets reduce the static charge of the plastic stock pages and brings them to a more neutral state, thereby reducing their attractiveness to small particles in the air.

Whether a wiping cloth sprayed with a commercially available formula to bring pages to a neutral PH factor would also work, is untested. The two realms are different.

One may also find these sheets are effective in degaussing the TV or computer screen as well, As the electron flow across the tube builds the static charge, dust and debris are attracted and cling to the screen. A "Bounce" sheet wipes them cleanly off.

## SNIPPETS

By Alan Thomson

Another Love Sunrise Type B

A second copy of the Love Sunrise collector coil with the type B liner paper has turned up. Scott Adams found this plate number strip of five in dealer Brian Engler's stock. Brian sent a computer scan of the strip but unfortunately the light blue lettering on the backing paper cannot be photocopied so there is no illustration to accompany the story. For those who have forgotten, the type B has lettering that runs from the lower right corner to the upper left corner and is inverted,

Snowman Perfs Strike Again

The overlapping perforation holes that sometimes appear on coils produced by Sennett Security Products are the result of slightly overlapping or misaligned skiving cylinders. They have appeared on several issues produced by Sennett, which uses skiving to perforate most of its coils. Rob Loeffler found the illustrated cropped strip of Wetlands number S1111 with the three holes near the middle of the vertical rows double cut. Misalignment forms the snowman shape horizontally.

**3¢ Star Coll Tagging Error** 

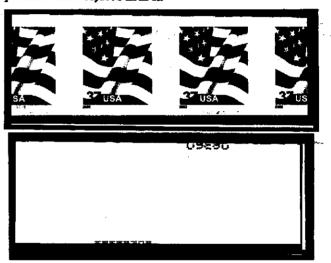

Sennett Security doesn't make many paper mistakes but it did on some Star coils that are supposed to be untagged. Jeff Fiszbein found two strips in a used mixture that are clearly printed on surface phosphored paper. The tagging is very grainy. The strips are four stamps long and were used in conjunction with five 5¢ Toleware stamps, all pasted across the top the the envelope. That layout should tell everyone that the tagged Stars came from a DAV return envelope. It's certain they did because the characteristic DAV blue border triangles are showing at the far left edge of the clipping. Somebody at American Packaging Corp., the outfit that actually printed the Star coil for Sennett, put a tagged roll of paper on the press. I'll chance a little arithmetic here and calculate that, with the web being 22 rows across and about 21,000 feet long, there could have been close to 550 rolls of 10,000 made with this paper mistake. One roll would service 2500 envelopes. There ought to be more of these strips of four if most of the return envelopes were not thrown away.

#### 7.1¢ Tractor Offered as Black Missing

Doug Iams was suspicious but curious enough to buy a 7.14 Tractor pair (NP ZIP+4) claimed to be missing the black ink. He checked it on receipt and yes, under magnification tiny dots of black were present even though part of the inscription was printed in red. To get his money back Doug had to get a certificate which, though misidentifying the stamps as 2127a rather than 2127b, did indicate black ink present. Be wary if you see this pair offered again.

Mystery Markings on Flag Roll

Some odd and unexplained markings have been found on a roll of the 37¢ Flag PSA coil produced by Banknote Corp. of America. Jewell Meyer bought part of a roll of 3000 that in one spot has portions of eight characters, each individually underlined, at the top of the back of the liner paper. These have nothing to do with back counting numbers and it appears they should have been trimmed off during slitting. If that's the case, this roll came from the top row in the web. Very little of the characters shows but they appear to be an alpha/numeric combination. In the pictures below the face view has the plate number on the far left stamp. The back view has been inverted to show the relationship of the back number and the unexplained characters to the plate number. The BN is on the back of the 2R stamp and the odd markings are on the back of the 1R stamp. These stamps were printed by Guilford Gravure for BCA and any definitive explanation is unlikely. If anyone has a plausible answer, let's hear it.

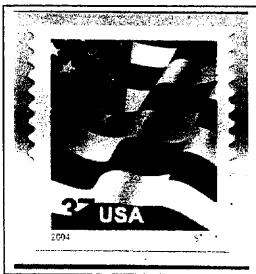

22¢ Flag Presses

There's been an ongoing discussion on the internet about which plate numbers of the Flag Over Capitol came from which of the three BEP intaglio presses, B, C or D, known to have printed the issue. Up to a point the answers are quite straightforward. Plate reports and press records clearly show that mumbers 2, 4, 6, 10, 13, 14, 15, 16, and 21 are B press products. The sleeves used for these numbers had 936 subjects (18 rows, 52 stamps around). A B press sleeve would not fit on the C and D presses, so these nine numbers were exclusively from the B press. Plate numbers 1, 3, 5, 7, 8, 11, 12, 17, 18, 20 and 22 have been shown to have made at least one run on the C press. How do we know this? The size of the tagging block from C press mats measures about 17.5mm by 21.5mm, plus or minus .5mm. All eleven plate numbers have been found with measurements. Since C and D press sleeves (20X48 for 960 subjects) were interchangeable, some of the eleven could also have come from the D press. Four numbers, 8, 18, 20 and 22, did also come from the D, because they have been found with the characteristic D press tagging block of 19.5mm by 23mm, plus or minus .5mm. The question remaining then is do any of the other seven C press numbers have the large D press tag block?

37c Flag Waving (SSP) (SA)
With Gaps
PNC ID 2004-1

Printed by Sennett Security Products

Middle Backnumber 0330 SSP Flag Waving with gaps

This coil is considered a reprint by USPS so it had no announced date of release. It was first available in late January 2004. It comes in 3K rolls.

It replaces another Flag Waving stamp on 3K and 10K rolls from BCA (PNC ID 2002-5). Banknote Corporation of America (BCA) lost their USPS printing contract in April of 2003. As supplies are exhausted, the USPS requests reprints from other stamp printing contractors.

Pink Backnumbers are found top, middle or bottom on a roll. Since backnumbers occur every 10 stamps and plate numbers occur every 20 stamps, on a given roll backnumbers remain constant. The table below shows known distances of backnumbers from the plate number.

33¢ Hat (SA) #1111 (round corners) commercial cover

### 33¢ PNCs

This month's topic covers the 33¢ PNC issues, starting first with the 33¢ Hat. The earliest known usages of Hat coils on covers sent through the mailstream are as follows:

#1111 (WA) (high #)	1/2/99	#3333 (SA)	12/30/98
#1111 (WA) (low #)	8/25/99	#3333 (WA)	1/19/99
#1111 (SA) (square corners)	12/31/98	#3343 (WA)	1/19/99
#1111 (SA) (round corners)	2/23/99	#3344 (WA)	1/28/99
#1131 (SA)	1/7/99	#3444 (WA)	1/22/99
#2222 (SA)	12/31/98	` ,	

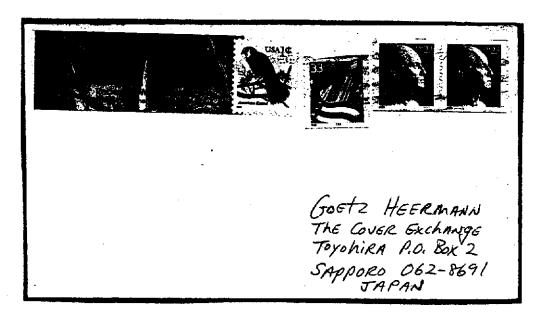

Commercial cover usages of the water-activated 33¢ Hat #1111 (low number), #3333, #3343, #3344, and #3444 and self-adhesive #1111 with round corners are tough to find.

The earliest known cover usages of the 33¢ Flag/City are as follows:

#1111 (WA)	3/11/99	#3333 (WA)	7/30/00
#1111 (SA) (square corners)	3/10/99	#3333 (SA)	3/29/99
#1111 (SA) (round corners)	3/20/99	#3433 (SA)	3/4/99
#2222 (WA)	3/24/99	#4443 (SA)	4/5/99
#2222 (SA) (square corners)	3/3/99	#4444 (SA)	4/13/99
#2222 (SA) (round corners)	4/9/99	#5555 (SA)	5/18/99

#6666A (SA)	7/31/00	· ·	#V2212 (booklet)	3/16/99
#7777A (SA) 9	9/14/00	•		

The toughest 33¢ Flag/City numbers to find on cover are #1111 (SA with round corners), #3333 (WA), #7777A (SA), and #V1112 (booklet).

33¢ Flag/City (WA) #3333 on cover sent to Japan

All of the 33¢ Berries PNCs are fairly easy to find on cover. The earliest 33¢ Berries cover usages are as follows:

#B1111	4/14/99	#B2221	5/29/99
#B1112	9/13/99	#B2222	4/13/99
#B2211	8/13/99	#G1111	7/11/00

If you have an earlier usage of any of the 33¢ issues on or off cover, please send me a photocopy.

## **COVER OF THE MONTH**

Che Honorable Ronald Wilson Reagan President of the United States

R. D. Methe 35 Broadview Bristol, Connecticut 06010

Acceptance Date: October 27, 1986

Recently my aunt sent me the above 4.9¢ Buckboard Prec. #5 cover. She is not a stamp collector, and she found the cover among some old letters. Not only is this cover dated on the front "October 27, 1986", but the PNC precancel is the line gap position with an extra gap in the top bar variety. (If you have a candidate for <u>Cover of the Month</u>, please send a photocopy of your cover against a black background to Rob Washburn, P.O. Box 840, Skowhegan, Maine 04976.)

#### THE END BIDDING INCREMENTS

38.00

\$0,50 to \$4.75 = .25 \$5.00 to \$9.50 = .50 \$10.00 to \$49.00 = 1.00 \$50.00 to \$97.50 = 2.50 \$100.00 to \$495.00 = 5.00 \$500.00 and over = 10.00 BIDDERS PLEASÉ READ

- 1) Nunber in () indicates the number of items in the lot or the number of items within a subset in that lot.
- 2) Lots with --- in the Min Bid column have an opening bid of .25c since this is the lowest bidding increment, all other lots have a Minimum bid listed and no bids below those MINS. will be excepted!
- 3) For precancelled strips if there is a GAP it is listed, no listing NO GAP!
- 4) In case of a tie bid, the earliest post mark or email date will win.
- 5) All winning bids will be at one advance over the second highest bidder, but if you are bidding on a ---- lot and you are the only bidder your bid wins as there is no second highest bidder.
- 6) R = right, L = left, BMC = black machine cancel, PMC = purple machine cancel HVY = heavy, FDC = first day cover or cancel, BMSC=black machine slogan S-# = plain strip NO #, P= position
- I will not except phone bids, only mail and email allowed.
- 8) ALL bids must be in the auction directors hand by the closing date and not postmarked on that datel
- 9) If you are mailing bids and have an email address please include it on your bid sheet. And if you are placing bids via email it will be included automatically.
- 10) Bids not conforming to the bidding increments will be lowered to that level.
- Bids with a (+) after them will be used to increase them by one increment only to help break a tie bid.
- 12) BUY BIDS will be excepted, but realize that only one buy bid can win a lot and that will be the first one, and at only one advance over the second highest bidder.
- 13) If you are on the net and would like to see a scan of a lot please email me at PNC3auctions@AOL.com
- 14) If you need to call to ask a question, but NOT to place a bid please call after 7 PM Chicago time at (773) 622 0663.

I would like to thank all the members who have donated lots to the club for auction. Please bid on these since all proceeds go direct to the club and helps to keep the dues down for you and all members. Please remember to bid early so you can win those lots that you really need. And if your email address is with your bids I will notify you of your winning total and send an invoice along with your lots once your payment has been received.

#### Letter

Toy B1111 is a tough find To the Editor:

Rolly Grandahl is not alone in his discovery that Toys B11111 is tough to locate. From kiloware mixes I have come up with around 230 B12222 but only 2 of the B11111, so my ratio is almost exactly as his.

I'd could really use some clarification on the 33c Flag rounded corners. A comparison photo would be really great.

> W. McDonald Toronto

(Editor's note: My kiloware results on B11111 vs. B12222 were nearly the same until my most recent mix received late in 2003. The B12222 was still dominate but I found about a dozen B11111s. I've still only a couple of B11111s on cover and both of those were used by members who sent me items for Coil Line. I've found none on the thousands of commercial covers from the office where I work. I also continue to be amazed at how few commemorative stamps are being used. So few that I keep most on cover figuring that's a better choice.)
